2. Basis of Preparation and Presentation of the Financial Statements

The quarterly information were prepared in accordance to the accounting practice adopted in Brazil, to the regulations of the Brazilian Securities Commission (CVM) and of the São Paulo Stock Exchange (Bovespa) for companies whose shares are traded at the “Novo Mercado” (New Market), and do not include the disclosure of usual information contained in the annual financial statements. Consequently, they do not include all the information and explanatory notes required by the standard accounting practices for financial statements presented as a whole.

The earnings of the six-month period ended on June 30, 2007 are not necessarily indicative of future earnings that may be expected for the year to be ended on December 31, 2007.

The balance sheets and statements of income for the periods, identified as “Parent Company”, were prepared in accordance to the accounting practices adopted in Brazil, whereas the balance sheets and statements of income of the periods, identified as “Consolidated”, include the capitalization of assets leased as finance lease. The reconciliation of shareholders’ equity and net income of the Parent Company and the Consolidated is summarized as follows:

	Shareholders’ equity on		Net income (loss) for the six-month period ended on June 30,	
	June 30, 2007	March 31, 2007	2007	2006
According to Parent Company	366,795	357,415	17,873	(1,654)
- Lease payable	(3,898)	(3,410)	(724)	(262)
- Leased assets	7,464	6,971	600	122
- Depreciation of leased assets	(2,987)	(2,925)	(99)	(296)
- Deferred income and social contribution taxes on the net effects resulting from the lease	(197)	(216)	75	(30)
According to the Consolidated	367,177	357,835	17,725	(1,596)

3. Significant Accounting Practices

The accounting practices adopted in the preparation of the quarterly financial statements are consistent with those disclosed in the financial statements for the year ended December 31, 2006.

Considering the acquisition of RM, held in the first half of 2006 and the mergers of subsidiaries held during the fiscal years of 2007 and 2006, mentioned in the note 1b) the comparison of Parent Company and Consolidated financial figures was impaired.

10. Contingencies

The Company and its subsidiaries, during the regular course of their operations, are parties in legal proceedings related to tax, social security, labor and civil matters. The Management, based on information of its legal advisors and analysis of pending claims, recorded a provision in amounts deemed as sufficient to cover probable losses expected in the outcome of lawsuits in progress, as follows:

	<u>979</u>	<u>1,064</u>	<u>979</u>	<u>1,080</u>

a) Proceedings in progress with recorded provision for contingencies

The breakdown of main proceedings, to which provision for contingencies was recognized, is as follows:

Social Security: The Company filed: (i) declaratory action to avoid the collection of the social contribution taxes destined to SESC (Social Service for Trade) and SENAC (National Service for Commercial Training), as well as an ordinary suit requesting the refund of contributions paid to the INSS; (ii) writ of mandamus pleading the unenforceability of the contribution to the INCRA (National Institute of Colonization and Agrarian Reform); and (iii) writ of mandamus pleading the unconstitutionality of the social security collection set forth by Laws No. 9876/96 and 5471/71, levied on the sales of the cooperatives. The judicial deposits made by the Company until June 30, 2007 amounted to R\$8,499 (R\$8,070 up to March 31, 2007), recorded as write down of the provisions for social security contingencies account.

Tax:

The Company (Belo Horizonte branch) is discussing in six (6) court deposit actions brought against the city governments of São Paulo, Rio de Janeiro, Uberlândia, Vitória, Campo Grande and Goiânia if they are required to pay the ISS (Tax on Services) at the rate of 5%, or if the tax is payable to the city government of Belo Horizonte where the rate is 2%. The Company understands that the ISS is due to the municipality of Belo Horizonte, where service is developed. Thus, the Company has been providing the court deposits under the scope of said lawsuits, taking into account the 5% rate and recording provision for these city governments by the 2% rate. The judicial deposits made until June 30, 2007, amounted to R\$4,652.

On May 22, 2001, the Company issued the writ of mandamus pleading the unenforceability of COFINS and PIS on the installments which, stated as income, have been transferred to another legal entity, requesting that the undue amounts were paid back. The amounts involved in the lawsuit were judicially deposited by the Company and amount to R\$79 on June 30, 2007 (R\$79, on March 31, 2007).

b) Other proceedings in progress

The Company additionally takes part in other lawsuits, for which no provision was recognized, since the responsible external attorneys and the Company's management deem the risk of loss as possible or remote. The breakdown of main proceedings in progress is presented as follows:

On September 12, 2000, a court claim for taxes against the Company was filed by the INSS in the amount of R\$5,127 (R\$7,450 – updated until June 30, 2007) referring to the tax delinquency notices to collect the social security contribution, SAT, contribution to third parties and respective formal penalties under the claim of non-compliance with the ancillary liabilities. The Company offered a real estate property located at Rua XV de Novembro, 3950, in the city of Joinville, state of Santa Catarina, as well as the respective improvements and permanent assets as a guarantee at that time, whose residual book value on June 30, 2007 is R\$1,125.

In 2000, a tax delinquency notice (NFLD) was filed by the National Institute of Social Security (INSS) which aimed: a supposed parity between legal entities rendering services and regular employees, in the amount of R\$2,945 (R\$6,577 – restated until June 30, 2007). The Company filed a protest letter and an appeal, in addition to making a court deposit, as provided for by law, in the amount of R\$1,152. In case of a favorable decision to the Company, such amount shall be duly withdrawn by the Company. In October, 2005, this notice was canceled, as per decision rendered by the Fourth Court of Appeals for Social Security Matters - CRPS. The INSS filed a request for reconsideration, which the court rejected by unanimous vote and upheld the decision cancelling the levy. Thereafter, the INSS filed a request for consistency of case law reaffirming the allegations contained in the request for reconsideration. The Company presented counterarguments with the grounds for the cancellation of the fiscal entry and the need of maintaining the unanimous decision issued by the Board of Directors. Currently, the Company awaits the decision on the petition for the uniformization of case law.

On May 4, 2007, the INSS filed a court claim for taxes against the Company in the amount of R\$1,604 referring to the social contributions destined to third parties (SESC and SENAC) levied on the compensation paid to employees who rendered services from March 1999 until July 2000. This amount was judicially deposited on May 25, 2007, and registered in non-current assets.

As a result of inspection procedures by the Brazilian Internal Revenue Service, the Company was assessed:

- (i) in 2000, in the amount of R\$833 (R\$2,374 – restated until June 30, 2007) related to federal taxes. The Company opposed to this assessment, which is currently under analysis, awaiting administrative first instance decision; and
- (ii) in 2003, in the amount of R\$340 (R\$954 – restated until June 30, 2007) referring to the 1998's Declaration of Federal Contributions and Taxes (DCTF). The Company challenged such assessment, which is currently under analysis, awaiting administrative first instance decision;
- (iii) in 2005, as a result of the Declaration of Federal Contributions and Taxes and the Declaration of Income Tax of Legal Entities, a tax foreclosure was filed against the Company in the amount of R\$2,911 (R\$4,073 – restated until June 30, 2007) related to federal taxes. The Company presented a plea requesting the extinguishment of tax foreclosure. The judge decided on the extinguishment of the lawsuit referring to the debt recorded in three of four overdue liabilities certificates. There is also an outstanding amount of R\$102, whose decision canceled its forceability, pursuant to the article 151 of the Brazilian Tax Code, until manifestation of the Attorney General of the National Treasury.

- (iv) in 2006, as a result of the tax proceeding, a tax deficiency notice was filed in the amount of R\$6,045 (R\$8,284 – restated until June 30, 2007), referring to discussions on commission and rental expenses and their respective effects on the calculation of Income and Social Contribution Taxes on Net Income for the fiscal year 2001. The Company challenged this notice, which is pending analysis of the Federal Revenue Office.

The Company had 8 assessments from the city government of São Paulo levying the ISS related to the period between 1996 and 2000, in the amount of R\$758 (R\$3,243 – restated until June 30, 2007). Such assessments result from the understanding of the São Paulo city government that the services rendered by the Joinville branch would be developed within the limits of the city of São Paulo. The Company's management and its legal advisors understand that all services are developed by the branch in the city of Joinville and deem that the tax was duly paid to that city. The Company's administrative appeals were judged groundless. The Company will defend itself in court.

c) Legislation in force

Pursuant to legislation in force in Brazil, the federal, state and local taxes, as well as social charges, are subject to examination by respective authorities for periods varying from 5 to 30 years. Legislations of other countries where Company's subsidiaries operate have different limitation periods.

11. Extraordinary Expenses

Pursuant to the Circular Letter/CVM/SNC/SEP no. 01/2006, the Company recorded as extraordinary expenses (as an item of operating expenses) the amounts related to the IPO process. The breakdown on such amounts regarding these extraordinary expenses, recorded in the six-month period ended on June 30, 2006, is the following:

08.01 – COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

PERFORMANCE REPORT

TOTVS S.A., the leader in the development and marketing of enterprise application software and in providing related services for small and medium-sized companies in Brazil and Latin America, announces its results for the second quarter of 2007. The following figures are presented in thousands of reais, except when otherwise indicated.

📌 Gross/Net Sales and Service Revenue

Gross sales and/or service revenue reached R\$119,748 in 2Q07, representing an increase of 15.7% when compared to the same period of 2006. This growth is mainly explained by the 24.8% increase in service revenue, and also by the growth of the maintenance sector which was 15.2% year-on-year. In the same period, net service and sales revenue also posted a growth of 17.6%.

📌 License Fee Revenue

With a record historical value of R\$27,908 against R\$26,622 recorded in the same period of the previous year, the Company presented a growth in license fee revenue of 4.8% in 2Q07. This increase is primarily due to the Company's efforts in improving the sale of license for use, once this revenue line generates the other service and maintenance revenues.

📌 Service Revenue

Service revenue grew 24.8% in 2Q07 reaching R\$42,359 when compared to 2Q06, when this revenue reached R\$33,933. This increase is higher than in other revenue lines, keeping the trend of the previous quarters, and arises mainly from the increase in revenue from license for use in the previous quarters.

A portion of the Company's service revenue arises from management consulting services rendered by TOTVS-BMI, which posted a gross revenue of R\$2,018 in 2Q07, representing a growth of 46.2% when compared to R\$1,380 year-on-year.

📌 Maintenance Revenue

Maintenance revenue increased 15.2% in 2Q07 when compared to 2Q06, reaching R\$49,481 against R\$42,960. This increase is mainly driven by the growth in license for use in the previous quarters.

📌 Operating Costs and Expenses (excluding net financial result)

Operating costs and expenses posted an increase of 10.7% in 2Q07 year-on-year, amounting to R\$96,437.

Excluding goodwill amortization expenses arising from the acquisitions of RM Sistemas and Logocenter, corresponding to R\$10,110 and R\$1,222 respectively in 2Q07, the total cost and expenses in the period amounted to R\$85,105, a growth of 12.2% year-on-year. In the same period, the Company's net revenue increased 17.6%, showing the Company's capacity to increase its operating results.

The Company still is in the phase of gaining synergies from the integration with Logocenter and, especially, RM Sistemas, as shown, for instance, in the reduction in the item General and Administrative Expenses that we comment as follows.

08.01 – COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Cost of License Fees

Cost of license fees reached R\$847 in 2Q07, a drop of 47.5% year-on-year. One of the drivers was the replacement of the middleware technology used in the Logocenter products by the Company's proprietary middleware technology. Following this operation, TOTVS gradually reduces its cost with royalties paid to third parties for the use of their technology.

Cost of Service

The cost of services rendered reached R\$32,532 in 2Q07, an increase of 16.8% when compared to 2Q06. This increase is directly related to the hiring of employees to work in software implementation and related services.

Research and Development

Research and development expenses reached R\$9,646 in 2Q07, representing 8.9% of net revenue, an increase of 19.2% when compared to 2006, when these expenses reached R\$8,092 and represented 8.8% of net revenue. This growth arises from the hiring of new employees, as well as from the effort to launch TOTVS's family 10 of products (Corpore 10, Logix 10 and Protheus 10), and especially from dedication to RM Sistemas' Corpore 10 product.

Advertising Expenses

Advertising expenses reached R\$3,555 in 2Q07, representing a reduction of 6.6% when compared to 2Q06, when expenses reached R\$3,807. This reduction is in line with the Company's marketing strategy, and is positively impacted by capturing synergies from RM Sistemas.

Selling Expenses

Selling expenses increased 15.0%, from R\$6,656 in 2Q06 to R\$7,656 in 2Q07, reducing its contribution to the Company's net revenue from 7.2% to 7.1%, respectively.

Commission Expenses

Commission expenses amounted to R\$13,481 in 2Q07, a growth of 22.3% when compared to R\$11,021 in 2Q06. This increase is mainly explained by increased sales and by the distribution of the sales mix among the group's internal and external channels. The external channel increased its contribution in total sales in 2Q07, which did not occur specifically in 2Q06.

General and Administrative Expenses

General and administrative expenses amounted to R\$10,084 in 2Q07, representing a drop of 11.6% when compared to 2Q06. This reduction was driven by the efforts made by TOTVS to adjust the costs and synergies relative to the operations with Logocenter and RM Sistemas.

Management Fees

Expenses with management fees amounted to R\$3,839 in 2Q07, remaining stable when compared to 2Q06, which was R\$3,830.
